NUCLEAR REGULATORY COMMISSION

[Docket No. 50–0289; NRC–2022–0115]

Constellation Energy Generation, LLC; Three Mile Island Nuclear Station, Unit 1

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption for Three Mile Island Nuclear Station, Unit 1 (TMI–1). The exemption would allow the licensee, Constellation Energy Generation, LLC (CEG) to use a portion of the TMI–1 decommissioning trust fund (DTF) for site restoration activities at TMI–1 without prior notice to the NRC. The NRC is issuing an environmental assessment (EA) and finding of no significant impact (FONSI) associated with the proposed action.

SUPPLEMENTARY INFORMATION:**I. Introduction**

The NRC is considering issuance of an exemption pursuant to section 50.12 of title 10 of the *Code of Federal Regulations* (10 CFR), “Specific exemptions,” for Renewed Facility Operating License No. DPR–50, for TMI–1, located in Londonderry Township, Dauphin County, Pennsylvania. By letter dated May 20, 2021, Exelon Generation Company, LLC, submitted a request for exemption from the specific requirements of 10 CFR 50.82(a)(8)(i)(A) and 50.75(h)(1)(iv). The exemption from 10 CFR 50.82(a)(8)(i)(A) and 10 CFR 50.75(h)(1)(iv) would permit the licensee to make withdrawals from the TMI–1 DTF for site restoration activities at TMI–1 without prior notice to the NRC, in the same manner that withdrawals are made under 10 CFR 50.82(a)(8) for radiological decommissioning activities. On February 1, 2022, the NRC was notified that the Exelon Generation Company,

LLC changed its name to Constellation Energy Generation, LLC.

In accordance with 10 CFR 51.21, the NRC has prepared an EA that analyzes the environmental effects of the proposed action. Based on the results of this EA, and in accordance with 10 CFR 51.31(a), the NRC has determined not to prepare an environmental impact statement (EIS) for the proposed licensing action and is issuing a FONSI.

II. Environmental Assessment*Description of the Proposed Action*

As described in the licensee’s application dated May 20, 2021, the proposed action would partially exempt CEG from the requirements set forth in 10 CFR 50.82(a)(8)(i)(A) and 10 CFR 50.75(h)(1)(iv). Specifically, the proposed action would allow CEG to use funds from the DTF for site restoration activities not associated with radiological decommissioning activities and would exempt CEG from meeting the requirement for prior notification to the NRC for these activities.

Need for the Proposed Action

By letter dated June 20, 2017, Exelon certified to the NRC that it had decided to permanently cease power operations at TMI–1 on or about September 30, 2019. Exelon permanently ceased power operations at TMI–1 on September 20, 2019, and certified all fuel is removed from the reactor core on September 26, 2019. On April 5, 2019, pursuant to 10 CFR 50.82(a)(4)(i), Exelon submitted the post-shutdown decommissioning activities report for TMI–1.

As required by 10 CFR 50.82(a)(8)(i)(A), decommissioning trust funds may be used by CEG, the current licensee, if the withdrawals are for legitimate decommissioning activity expenses, consistent with the definition of decommissioning in 10 CFR 50.2. This definition addresses radiological decontamination and does not include activities associated with spent fuel management or site restoration. The requirements of 10 CFR 50.75(h)(1)(iv) also restrict the use of DTF disbursements (other than for ordinary administrative costs and other incidental expenses of the fund in connection with the operation of the fund) to decommissioning expenses until final radiological decommissioning is completed. Therefore, an exemption from 10 CFR 50.82(a)(8)(i)(A) and 10 CFR 50.75(h)(1)(iv) is needed to allow CEG to use funds from the TMI–1 DTF for site restoration activities at TMI–1.

The requirements of 10 CFR 50.75(h)(1)(iv) further provide that,
